# VISION PANEL Sureview

Thanks to our passion for feedback, we see things the way our customers do. That's why we designed a robust vision panel bead with no visible metal fixings on the bedroom side – just like the inside of a front door at home.

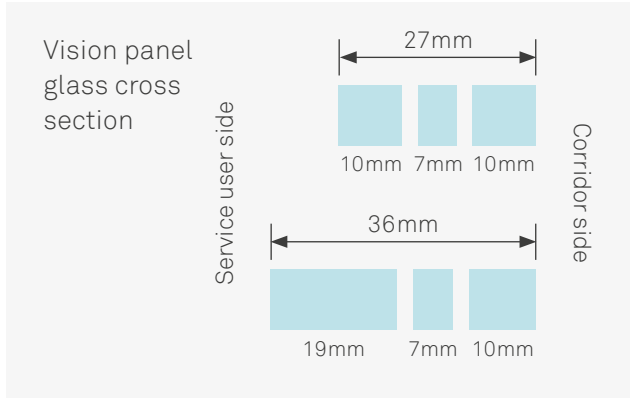

The metal glazing bead is robust and durable, yet thanks to its range of finishes, never looks institutional. And the improved edge detailing creates a softer design that's safer and reduces the opportunity for self-harm.

Fire tested and certified with vision panels, which come with our universal staff-only Lifeline key, providing just one key for both observations and anti-barricade access, making it simple, quick and easy for staff to use.

Depending on use, the panel is available in two robust thicknesses — 27mm (LSU) and 36mm (MSU).

## FINISHES

The robust metal bead is available in a range of finishes to match every doorset, from a RAL colour powder coat to an oak timber effect. Each option blends in seamlessly, proof that robustness doesn't need to look institutional.

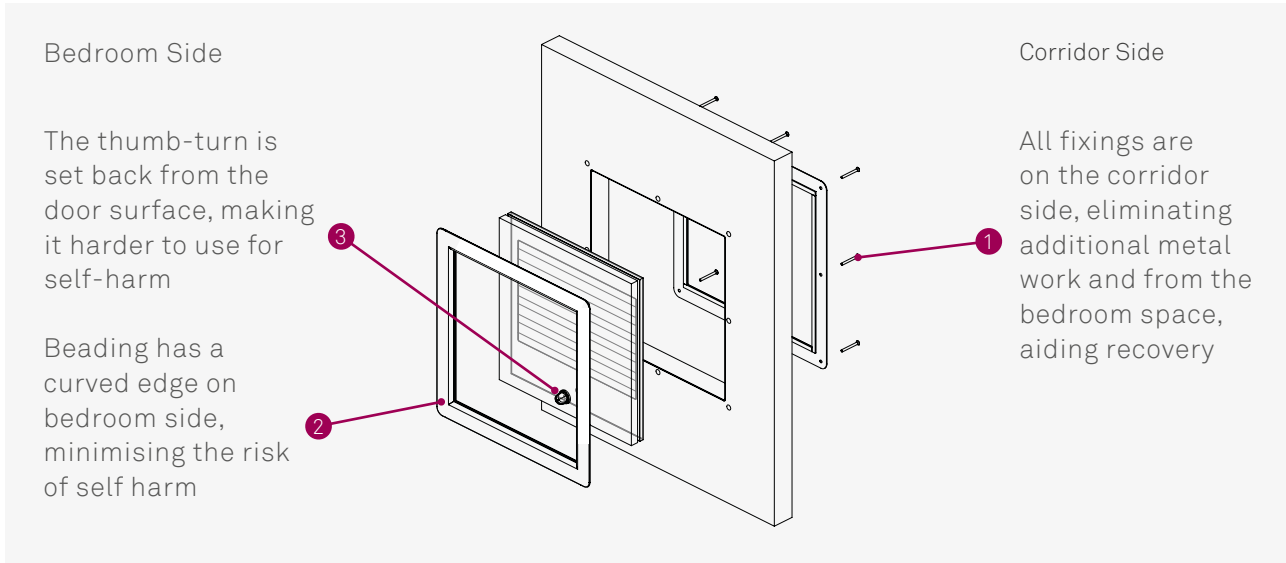

## DESIGN AND SHAPE

Our vision panel beads come in a range of colours to blend into any environment. They can be square or rectangular, allowing better observation and light flow and creating a **high quality, recovery-focused environment**.

## GLASS THICKNESS

Depending on your requirements, we offer either a 27mm or 36mm vision panel. Like all our products, they're rigorously tested under extreme conditions to ensure they're suitable for challenging environments.

# CONCEALED DOOR CLOSER Sureclose

- Concealed in frame head, removing ligature points
- No floor excavations required – ideal for refurbishments
- Powerful back check function reduces abuse to doors and keeps staff safer
- Adjustable power rating and closing speed to ensure opening force compliance

## DOOR CONTROL – BACK CHECK FUNCTIONALITY

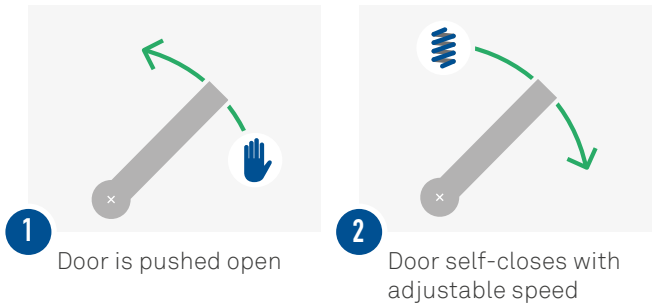

Internal brake function as standard slows door under extreme force, eg kick or slam. Powerful back check function protects staff from door being used as a weapon and defends door from damage, increasing its lifespan.

# DOOR CLOSER OPTIONS

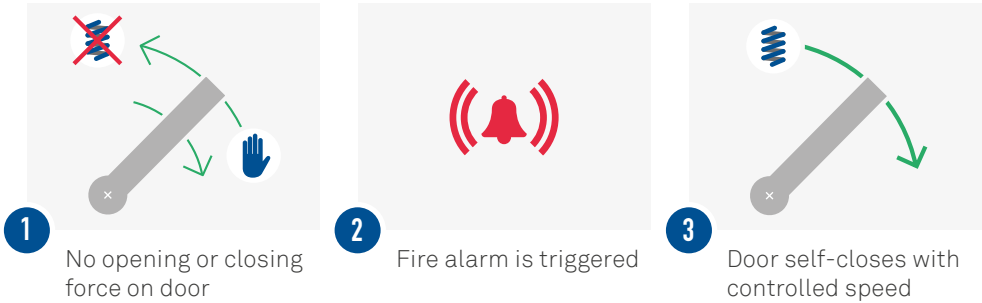

## STANDARD

Automatic mechanical closer which maintains fire compartments and ensures staff safety

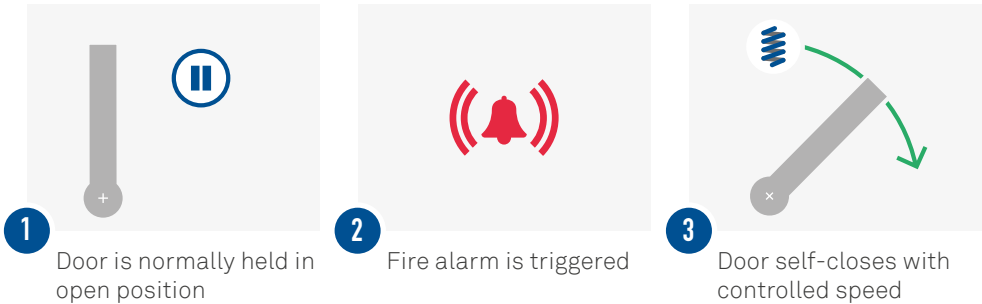

## FREESWING

No opening force, ideal for leaving doors open for observation and still closes in the event of a fire alarm

## HOLD-OPEN

Doors stay in the open position day-to-day, ideal for creating open, spacious environments

# FRAMES AND FINISHES

The frames for our Symphony doorsets are available in either timber or robust, rapid-install metal.

## BENEFITS OF METAL FRAMES

- Pre-finished offsite and installed in just two hours
- Built-in collapsible anti-barricade doorstep gives 2-second access – the fastest and most reliable in Mental Health
- The integral architrave prevents service users from prising off and weaponising. Achieving the same with timber requires a high number of screw fixings – adding time, cost and impacting the overall aesthetic
- Because it can withstand the toughest knocks, it lasts longer, reducing maintenance and replacement costs

## FRAME FINISHES

Frames can be pre-finished offsite in any RAL colour and finished with semi-gloss or matt texture – blending seamlessly into any design scheme.

# DOOR FACINGS

Our doors can be finished in colour, timber laminate, timber veneer, or PVC to suit your project and design scheme. We understand the importance of creating a soothing environment and choosing the right finish is key. We recommend PVC for high-abuse areas.

## TIMBER VENEER

### Maple

### Oak

### Ash

## COLOUR OR TIMBER LAMINATE

We've selected a sample of popular laminates below. Please refer to the Formica Door Range (Matte 58 finish) for full the range.

F2962 Clementine	F6902 Grenadine	F0233 Heather	F7940 Spectrum Yellow
F1326 Capri	F1850 Fontana	F3236 Avocado	F8755 Lemon
F2479 Delphinium	F5127 Monaco	F0231 Peaceful Blue	F4172 Caribbean

Notes

# GET IN TOUCH

**Our customer service and specification teams can help with any queries about our doorsets. However you choose to get in touch, we're happy to help.**

Because we're experienced in Mental Health environments, our team welcomes the chance to discuss any challenges you might be facing, so we can set to work solving them.

Covering the whole of the UK, we'd be pleased to drop by and introduce you to Safehinge Primera, explain our products in detail, demonstrate mobile samples and listen to your requirements.
